**Subject:** Rutland Village Community Connectors project opportunity

Good afternoon,

I'm a Public Health Strategic Lead for Rutland and I'm contacting you regarding joining us on a community led project.

We have been working on a community project called 'High 5', consisting of a collection of villages close to each other around Greetham. The project aims to support village communities to connect with each other (when close to each other) and take the lead on improving their area, with our support where needed. This could be setting up new social groups, sharing communications, service awareness or helping to link vulnerable people into services as early as possible.

The pilot has been viewed as successful and we are now looking to take this learning to other villages in the county, hence the email to yourselves. We would love to have a conversation with you to share learning from High 5 and how we anticipate growing the project moving forward. We want to hear how your village may want to link in with our work and how we can support.

Please can you share with the most relevant contact at the Parish and share some availability over the coming weeks for a discussion. We'd like to hear what other villages you see as the best to connect with. There is no commitment at this stage, it's an informal conversation to talk it through and hear your thoughts.

Please let me know if you have any questions and I hope we can discuss this opportunity soon.

Kind Regards,

**Mitch Harper**
